Pro:Centric[®] Smart Hospitality 4K UHD TV

US660H9 Series

Commercial Lite	Pro:Centric Value	Pro:Centric Direct	Pro:Centric Smart
-----------------	-------------------	--------------------	--------------------------

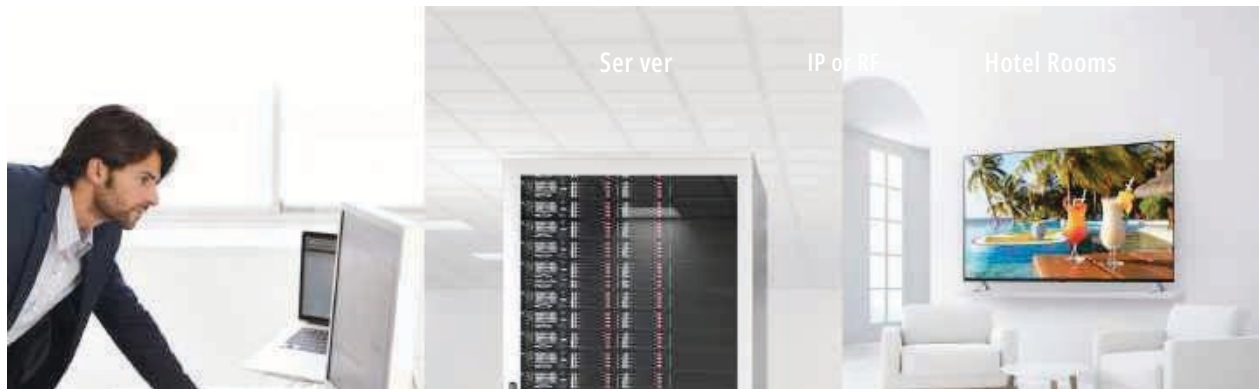

The US660H Series is a premium 4K Ultra HD Smart TV that supports Pro:Centric Direct, LG's HTML application that offers customizable tools for LG's system Integrator partners to create unique, interactive application experiences. The US660H Series also supports Smart Share, Screen Share, Pro:Idiom[®].

Pro:Centric Smart Hospitality 4K UHD TV US660H9 SERIES

FEATURE HIGHLIGHTS

Pro:Centric Direct

LG's Pro:Centric Direct application enhances the in-room television experience for hotel guests. Guests can locate and enjoy available TV channels or access a wide range of over-the-top Smart apps, check on the daily weather and review available hotel amenities—all from the comfort of their room. In addition, the application provides the capability for IoT (Internet of Things)-based control of devices* equipped in next-generation hotel rooms.

* Some devices may have limited compatibility with IT functions.

More Innovative LG webOS 5.0

Explore the latest LG Smart TV features that help extend the usability of your TV. Our newly added Mood Display enables the TV to appear as a customized clock, and Gallery mode creates the appearance of framed artwork that you can customize to reflect your space and rhythm of life.

Pro:Idiom

Digital Rights Management (DRM) technology provides access to premium content to help assure rapid and broad deployment of HDTV and other high-value digital content.

Images shown are for illustrative purposes only

Pro:Centric Smart Hospitality 4K UHD TV US660H9 SERIES

FEATURE HIGHLIGHTS

Gallery Mode

LG's Gallery Mode can turn the TV into a beautiful artwork display or choice photograph in a guest room or enhance the most elegant hospitality public spaces.

SoftAP

Software-enabled Access Point (SoftAP) is a "virtual" Wi-Fi feature that uses the TV as a wireless hotspot, enabling guests

to connect their own devices to the SoftAP. It supports Bridge Mode, allowing administrators to manage in-room SoftAP information such as signal level, SoftAP passwords, and more.

* SoftAP should be setup in the installation menu after the TV is turned on. Smart Mirroring may not be operated at the same time.

USB Data Cloning

For fast and easy configuration of multiple TVs, create a Master TV Setup on one TV and then export the setup "clone" file to a USB memory device. Use the USB device to easily import the setup to other TVs of the same model.

Ultra HD (4K) Resolution

UHD delivers a resolution four times higher than that of Full

HD, creating a more realistic and immersive television viewing experience. The stunning 8.3 million pixels create flawless images with incredibly vivid detail.

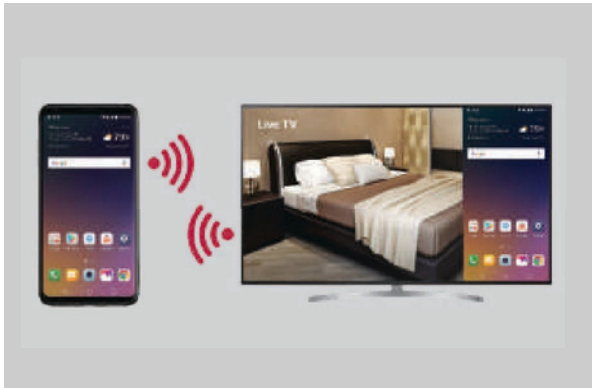

Pro:Centric Smart Hospitality 4K UHD TV US660H9 SERIES

FEATURE HIGHLIGHTS

ScreenShare

Connect a smart phone or a laptop PC to the TV via a wireless connection. The TV will display the device's screen so guests can view and share their content and memories together.

Bluetooth Sound Sync

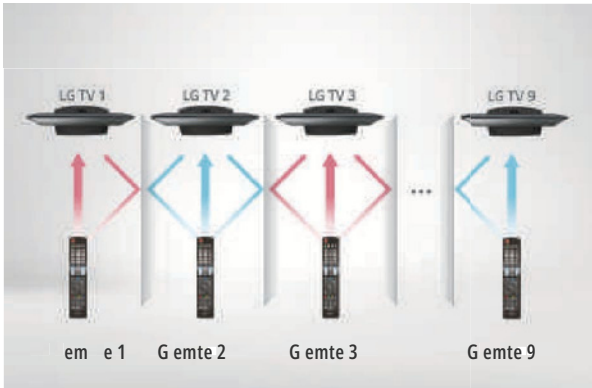

Bluetooth Sound Sync enables you to listen to music playing on a mobile device* through the TV's speakers via Bluetooth connection.

* Bluetooth Sound Sync supports Android (above v 4.4 KitKat) / iOS-based mobile devices.

Multi-code IR

Multi-codeIR* function eliminates any remote control signal interference between TVs in rooms with multiple TVs installed.

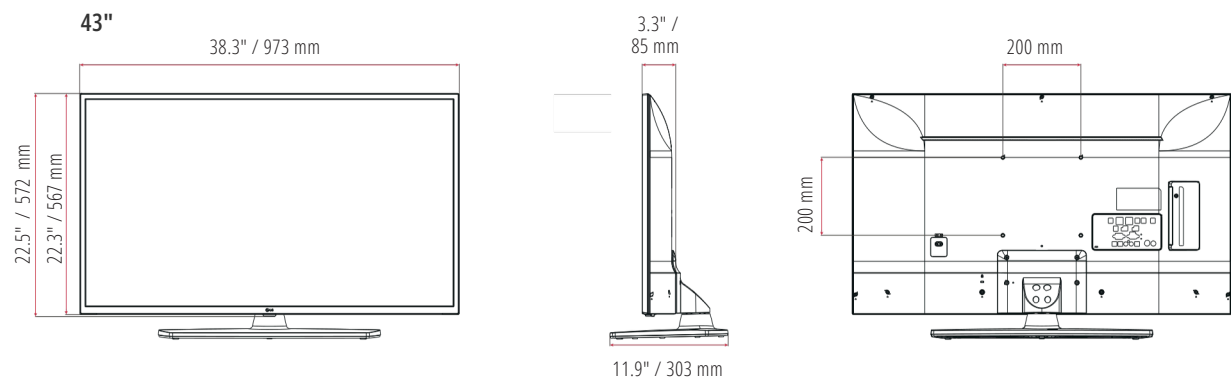

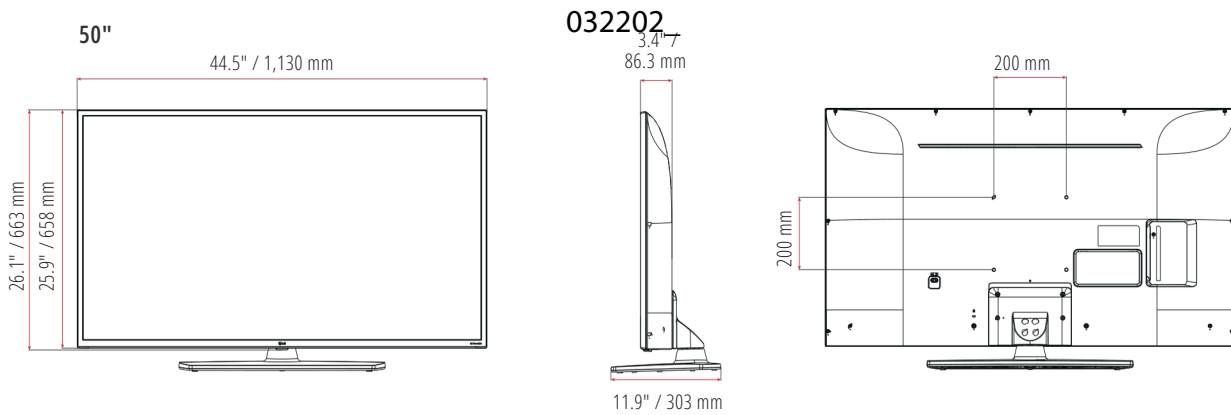

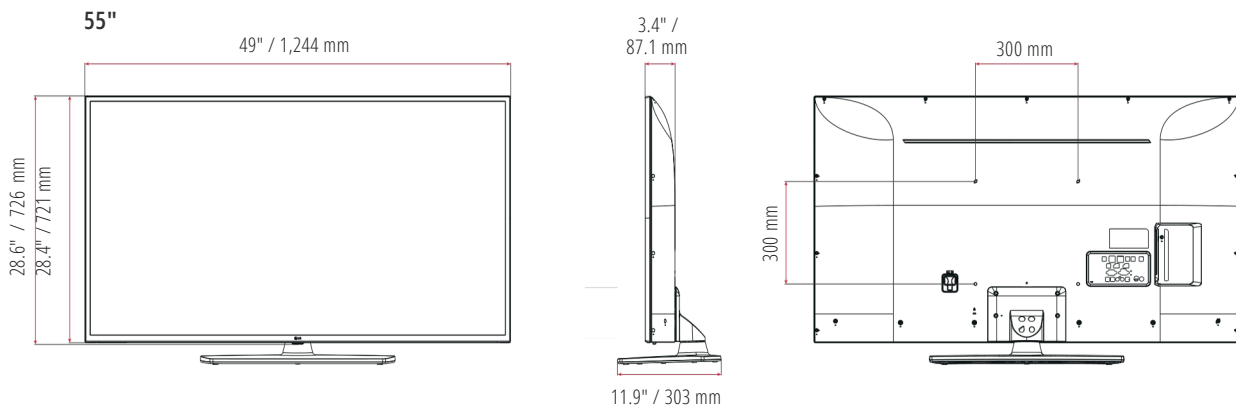

* Requires optional Multi-codeIR remote.
